

I just want to plead the case for K-LOVE to stay on the air. With so many radio stations playing music that is a terrible influence on our children, it is imperative that this station continue to exist. This station has such a positive, encouraging message and plays uplifting music. I am deeply concerned that this radio station could be replaced with something that is harmful to our children. I just hope that you will take my input into consideration when looking at the possibility of jeopardizing this radio station. Thanks so much for your time.
